Introduction

GP Pensions administration is now managed through PCSE Online.

When it comes to getting your pension contributions right, we understand how important it is for any breaks in service, or any approved leave, to be considered in your pension contributions. You can now manage these in PCSE Online.

When you submit a break in service or any approved leave through PCSE Online, the change takes effect from the next calendar month. The system will also log all of the changes you make so you can keep an accurate record.

The break in service process will automatically stop a performer's contributions but it will not automatically re-start them when the performer returns to work. The performer will need to re-opt back in the pension scheme when their service break is over.

To use this guide, your user administrator needs to ensure you have been set up in PCSE Online with at least one of the following roles:

- **GPP - Special Leaves**

Break in Service Data entry Form

Please read the [Guidance Notes](#)

Use this Break-in-Service form if you wish to leave NHS and NHS Pension Scheme. This application form once submitted will stop Pension Contribution Deductions from ALL your currently active NHS Employments and record that you are no longer an NHS Employee. Refer Guidance Notes for current rules regarding Break-in-Service.

To continue to be a NHS Employee but to take a career-break from a single employment only, use the Leavers Form, through the relevant Employer. That will leave you as an active NHS Employee and allow you to join any NHS Employer. Once you have joined another Employer, your Pension Contribution Deductions will re-commence, from that new Employer.

To continue to work in ALL your currently active NHS Employments but stop deducting Pension Contributions, use the Opt-out form SD-502, available at [Opt-Out Form](#)
